Dear Mr. White.

We are now facing the question of choosing the name for the Great Controversy which is to be published in Icelandic next year (counting on the subsidy that year). In the world field there seem to be two names given to this book: Great Controversy or The Triumph of Gods Love. Which name would you counsel us to choose?

We have discussed this matter but not decided anything yet. Some think that the first name was chosen by Gods servant and is the best description of the subject matter of the book, also that the latter title is not fitting since the mentioning of Gods love is not appealing to modern man ( the book is to be sold to non-adventists). Others think the second name more fitting as they feel the name Great Controversy is very harsh and they also feel that chapter headings in the latter are more appealing to moderns.

In your answer kindly comment on these things, i.e both the name (title of book) and chapter headings.

Waiting your early answer, I remain,

Very sincerely yours,

  
Sigurður Bjarnason.
